

This damage is both expensive and inconvenient but is rarely caused by your vehicle, or the way you drive. Instead, most tyre damage is caused by the roads we drive on, where potential hazards such as potholes, cracks and road debris are commonplace.

Thankfully, avoiding unexpected and expensive tyre replacement bills is easy with protection from Tyreguard – a simple insurance policy that covers your tyres for 60,000kms or 3 years (whichever comes first).

## **HOW IT WORKS**

It's really simple — when you experience tyre damage, simply call the claims hotline on 0861 66 88 88 and an agent will direct you to the nearest approved tyre dealer to submit a claim for the cost of repairing or replacing the damaged tyre. You only pay for the tread that you've used, as per the Tyreguard benefit table below.

But that's not all — when replacing a tyre, Tyreguard will also pay for the cost of balancing and wheel alignment of your vehicle's tyres. If the damaged tyre is punctured and can be repaired, Tyreguard will also cover the cost of repairs.

Tyreguard is available for new or used vehicles and provides the following benefits, which are calculated as a percentage of the cost of replacing the damaged tyre.

KMs travelled since inception	BENEFIT PAYABLE (% OF THE REPLACEMENT TYRE COST)	
	NEW	USED
Up to 2,000kms (or within first 30 days, whichever occurs first)	100%	70%
between 2,001 to 20,000kms	80%	70%
between 20,001 to 40,000kms	60%	50%
between 40,001 to 60,000kms	40%	30%

## **POLICY HIGHLIGHTS**

- 3 YEAR/ 60,000KMS COVER.
- FREE PUNCTURE REPAIRS.
- FREE WHEEL ALIGNMENT WHEN A DAMAGED TYRE IS REPLACED.
- FREE WHEEL BALANCING WITH EACH CLAIM.
- 100% REPLACEMENT WITHIN 2,000KMS OR 30 DAYS OF PURCHASE FOR NEW VEHICLES.
- ✓ AFFORDABLE ONCE-OFF PAYMENT
